DETAILED ACTION

1. Claims 1-51 are presented for examination.
2. A telephone call was made to John Thompson on June 25, 2004 to request an oral election to the restriction requirement below, but did not result in an election being made.
3. Applicant is advised that the reply to this requirement, in order to be complete, must include an election of the invention to be examined, even though the requirement may be traversed (37 CFR 1.143).
4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).

Election/Restrictions

5. Restriction to one of the following inventions is required under 35 U.S.C. 121:

Art Unit: 2121

- I. Claims 1-25, drawn to an image acquisition system, classified in class 378, subclass 62.
- II. Claims 26-49, drawn to a node utilizing a queue for storing event instructions, classified in class 710, subclass 52.
- III. Claims 50-51, drawn to a node which has a control unit that stores boot instructions for loading initial instructions, classified in class 713, subclass 2.

6. The inventions are distinct, each from each other because of the following reasons: Inventions I and II are different inventions from invention III. Inventions II and III are different from invention I. Inventions I and III are different than invention II. See MPEP 806.05(d).

7. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classifications, restriction for examination purposes as indicated is proper.

8. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Groups II-III, and vice versa, restriction for examination purposes as indicated is proper.

Art Unit: 2121
